CONTROLLED ENVIRONMENT FROCK

CEF0-WK-KG-WHITE

DESCRIPTION: KEYGUARD-NO POCKET-KNIT WRISTS-MANDARIN COLLAR-6 SNAPS-ELASTIC BAND THUMB LOOPS AND HANG LOOP-ANTI STATIC TREATMENT

Keystone's **KEYGUARD** disposable microporous frocks are manufactured from a specially formulated material that makes these garments highly breathable and provides great comfort and protection. A great cost savings alternative to Tyvek. These cleanroom compatible coveralls are low shedding, low in particulate, and are anti-static to protect sensitive products. **KEYGUARD** frocks are an excellent particulate barrier, liquid repellent, and provide great comfort.

The extra-long, knee-length frocks protect the controlled environment from the number one source of contamination found in cleanrooms --- people. The mandarin collar and the six-snap front provide better protection than a traditional lab coat. The knit cuffs with thumb loops make donning gloves easier and prevents exposed wrists and forearms on your production floor.

FEATURES

BENEFITS

Microporous Fabric	<ul style="list-style-type: none"> Low lint, low particulate, excellent particulate barrier Fluid resistant Provides excellent moisture vapor transmission making frock cooler to wear Antistatic treated to protect sensitive products
Thumb Loop	<ul style="list-style-type: none"> Improves glove donning by preventing the sleeve from sliding up during the donning process
Hanger Loop	<ul style="list-style-type: none"> Ease of storing garments on breaks and in lockers if needed
Knit Cuff	<ul style="list-style-type: none"> Provides tapered fit which improves glove donning and user comfort
Knee-Length	<ul style="list-style-type: none"> Directs contaminants generated from wearer away from critical sites to areas well below the work surface
Mandarin Collar	<ul style="list-style-type: none"> Provides more complete closure, eliminating the issues associated with lapel style collars

Applications: Designed for controlled environments where fibers and particulate contamination is a concern. Commonly used in cleanrooms, laboratories, medical and pharmaceutical industries.

All Keystone Safety Product components comply with the provisions of the Federal Food, Drug and Cosmetic Act, which allow repeated use in direct contact with food. Fabric conforms to FDA code of Federal Regulations Title 21, Rule 110.10 & 177.1950
