## GREEN GHD STERILIZATION WRAPPER

When secured with autoclave tape, or elastic bands, Green GHD wrappers provide an effective microbial barrier from external sources of contamination.

- Treated to impart water and alcohol repellency
- Superior bacterial barrier properties compared to linen
- Sterilization indicator tapes adhere firmly and remove easily
- Ideal choice for for light trays, small basins and towels
- Resists tearing and punctures
- Does not contain any natural latex rubber
- Processed and packaged in ISO certified cleanrooms
- Functional equivalent to the discontinued Cardinal Health™ Bio-Shield® wrap

These versatile wraps offer fluid repellency and provide an excellent barrier against airborne bacteria. The soft, drapable non-woven blend of cellulose and polyester is virtually lint-free and helps protect wrapped contents from contamination.

These wraps are wet formed, lightweight non-woven fabric comprised of natural wood pulp and polyester fibers bonded with a resin binder and are designed for steam sterilization; but also compatible with EtO or gamma irradiation.

### MATERIAL SPECIFICATIONS:

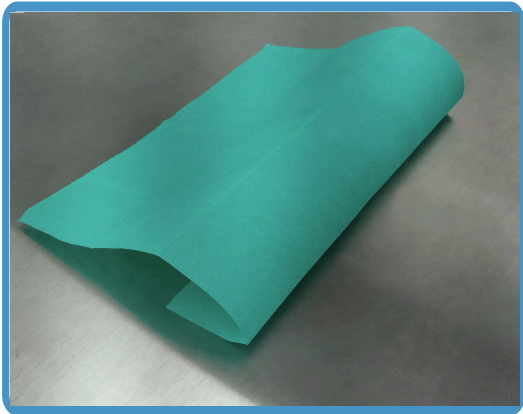

PROPERTY	UNITS	GHD MATERIAL
Basis Weight	Gm/m2	57
Dry Tensile Strength (MD)	grams	8,100
Dry Tensile Strength (CD)	grams	7,100
Elongation Dry	%	27.3
Air Permeability	liters / 100 sq. cm	110
Suter Water Head (pressure test)	mm	400
Dry Mullen Burst	Grams / sq.cm	2,150
Flammability	seconds	8
